To provide greater visual clarity, existing and potential roadway ties to existing have been shown. These maps, including utility easements, are NCDOT Right-of-Way. All driveway ties will utilize utility easements. The designs shown on preliminary and are subject to change. For major roads that have established maps or on other displays. The utility final design phase on final surveys.

Proposed NC-133 Corridor Improvements from I-140/U.S. 17 (Wilmington Bypass), to New Hanover County, North Carolina.

Public Meeting Map

Project U-5863

Information shown on these maps is limited. Existing roadway ties to existing have been shown. Proposed utilities are not shown on these maps, but will be evaluated and coordinated during the design phase. For major roads that have established maps or on other displays. The utility information phase is shown on final surveys.
