Create and execute continuing, cooperative and comprehensive regional long-range planning efforts that pro-
actively drive transportation decisions to improve safety, connectivity, economic development and quality of life in
the Wilmington region.

Wilmington Urban Area Metropolitan Planning Organization
Board
Meeting Agenda

TO: Wilmington Urban Area MPO Board Members
FROM: Mike Kozlosky, Executive Director
DATE: July 23, 2020
SUBJECT: July 29th meeting

A meeting of the Wilmington Urban Area MPO Board will be held on Wednesday, July 29, 2020 at 3 pm.
The meeting will be held at 115 North 3rd Street in the 5th Floor Conference Room in downtown
Wilmington. Due to COVID-19, the meeting is being conducted remotely. PLEASE NOTE: This will be
a remote meeting conducted pursuant to Section 4.31 of S.L. 2020-3, SB 704.

The remote meeting will be simultaneously streamed live online so that simultaneous live audio, and
video, if any, of the meeting is available to the public at the following
URL: https://zoom.us/j/98476932128?pwd=VFkwQUFNRGxYzJG1nNtM0FvRWgyQT09

The public may also dial in and listen to the simultaneous live audio of the remote meeting at the following
dial in number: 312-626-6799 or 646-558-8656. And when prompted, enter: Meeting ID#: 984 7693 2128
and Password: 893393.

Please join the meeting from your computer, tablet or smartphone.

The following is the agenda for the meeting:
1) Call to Order
2) Conflict of Interest Statement
3) Approval of Board Member Excused Absences
4) Approval of the Agenda
5) Public Comment Period
   Persons wishing to submit a public comments to be shared during the MPO Board meeting
   may do so by 5 pm on July 28, 2020 by calling (910) 341-3258 to leave a message or by e-
   mailing comments to wmpo@wilmingtonnc.gov. The public voicemails will be played aloud
   and the public comment e-mails will be read aloud by a staff member during the meeting. Per
   the adopted Public Participation Plan, public comments shall be limited to 3 minutes.
6) Consent Agenda
   a. Approval of Board Meeting Minutes from June 24, 2020 (p. 3-9)
b. Resolution approving 2018-2027 and 2020-2029 STIP/MPO Transportation Improvement Program Amendments #20-1, #20-2 and #20-3 (p. 10-15)
c. Resolution supporting FY 21 Unified Planning Work Program Amendment #1 (p. 16-18)
d. Resolution supporting applications for the deployment of CASSI in the City of Wilmington and Town of Carolina Beach (p. 19-20)

7) Regular Agenda
   a. Resolution approving the Final Draft of Cape Fear Moving Forward 2045 (p. 21-38)

8) Discussion
   b. 2020-2029 STIP/MPO Transportation Improvement Program Administrative Modifications #20-5 (p. 39)
   c. MPO Funding Release Recommendation (p. 40-42)
   d. 2020 Meeting Calendar

9) Announcements
   a. Bike/Pedestrian Committee Meeting- August 11th

10) Updates
    a. Wilmington Urban Area MPO (p. 43-50)
    b. Cape Fear Public Transportation Authority (p. 51)
    c. NCDOT Division (p. 52-54)
    d. NCDOT Transportation Planning Division (p. 55-56)

11) Next meeting – August 26, 2020

MPO Board Remote Meeting Minutes  
Wilmington Convention Center, 10 Convention Center Drive, Wilmington, N.C.  
Wednesday, June 24, 2020

Members Present
David Piepmeyer, Pender County  
Pat Batleman, Town of Leland  
Neil Anderson, City of Wilmington  
Mike Allen, Town of Belville  
LeAnn Pierce, Town of Carolina Beach  
John Ellen, Town of Kure Beach  
Hank Miller, Town of Wrightsville Beach  
Rob Zapple, New Hanover County

Mike Forte, Brunswick County  
Eulis Willis, Town of Navassa

Others Present
Mike Kozlosky, Executive Director, WMPO  
Chad Kimes, Division Engineer, NCDOT Highway Division 3

1) Call to Order  
Chairman Piepmeyer called the remote meeting to order at 3:02 p.m.

Mr. Kozlosky requested that a roll call be taken per the statute and that remote participants mute their microphones when not speaking in order to prevent audio feedback.

The roll-call proceeded as follows:

2) Conflict of Interest Statement  
Chairman Piepmeyer read the conflict of interest statement, and asked if any members had a conflict with any of the items on the meeting agenda. No members reported having a conflict.

3) Approval of Board Members’ Excused Absences  
Mr. Kozlosky stated that Neil Anderson and Charlie Rivenbark have been detained due to a City Council meeting.

Vice-Chair Batleman made a motion to excuse Mr. Anderson and Mr. Rivenbark, seconded by Mr. Miller, and the motion carried unanimously by roll-call as follows:

4) Approval of the Agenda  
In response to concerns expressed by Mr. Zapple, Mr. Kozlosky stated that no vote was necessary for the conflict of interest statement.

Mr. Ellen made a motion to approve the agenda, seconded by Mr. Forte.

Vice-Chair Batleman made a motion to pull Consent Agenda Item 7g (Resolution approving the Prioritization 6.0 Rail Project Submittals) for further discussion.
Mr. Zapple requested to pull Consent Agenda Item 7i (Resolution approving 2018-2027 and 2020-2029 STIP/MPO Transportation Improvement Program Administrative Modifications #20-3 and #20-4) for further consideration.

Mr. Zapple made a motion to approve all the other Consent Agenda items and the rest of the Agenda as well, with the exception of Item 7g and Item 7i. Mr. Ellen seconded the motion, and it carried unanimously by roll-call as follows:

**Ayes:** David Piepmeyer, Pat Batleman, Mike Allen, LeAnn Pierce, John Ellen, Hank Miller, Rob Zapple, and Mike Forte. **Nays:** None. **Absent:** Neil Anderson, Charlie Rivenbark, Woody White, Eulis Willis, and Landon Zimmer.

5) **Public Comment Period**
Mr. Kozlosky reported that no written or audio public comments were received.

Mayor Willis joined the meeting.

6) **Presentation**
   a. **NCDOT Project Updates - Chad Kimes, NCDOT**

   Mr. Kimes gave a project update starting with an overview of NCDOT’s cash floor (7.5% above revenues or $292 million). He stated that in March, NCDOT's cash balance was anywhere from $300 million to $325 million, due primarily to expenses related to storm events since 2017 and the Map Act. Additionally, recent rain events have closed 18 roads in the Division including sites that received over 12 inches of rain during a 12-hour period twice in one week, exceeding the 1,000-year storm event.

   Mr. Kimes gave an overview of NCDOT revenue sources and explained that COVID directly impacts them. He stated that motor fuel tax constitutes 40% of revenue sources, and Highway Use Tax, licenses, other title fees make up close to 35%. He noted that for the first five weeks of COVID, vehicle traffic dropped 40%-50%, which directly impacts revenues. He estimated the revenue loss through July 1st at $300 million and another $370 million for the following fiscal year.

   Mr. Kimes stated that during the week of April 17th the cash flow balance fell below the cash floor. He reported that the cash balance totals $206 million. He noted that this drop has ostensibly shut down the delivery of transportation projects, including ceasing letting of TIP projects or bridge projects, and halting contract modifications for ongoing projects; although, active projects without modifications can continue. Also, NCDOT cannot acquire property for future projects, which is significant for this area. Additional measures included the suspension of preliminary engineering and right-of-way acquisition, adjustments to let dates, a hiring freeze, cuts to consultants, and a mandatory 20-hour furlough for all NCDOT employees.

   Mr. Kimes stated that the only projects with engineering progressing in the Division are the Hampstead Bypass and the Front Street widening project, which is somewhat misleading since the Hampstead Bypass is in the right-of-way phase. He noted that Division 3 is the only division in the state that without projects moving forward.

   Mr. Ellen requested that the presentation be distributed for sharing with the Kure Beach Town Council. Mr. Kozlosky responded that he will forward the information to MPO Board members.

   A brief question/answer and discussion period was held.
7) Consent Agenda
   a. Approval of Board Meeting Minutes from May 27, 2020
   b. Resolution supporting the Rail Re-alignment Project for the Benefits of Environmental Sustainability, Improve Commuting Times, Public Safety, Quality of Life, Enhanced Freight Movement and Economic Development
   c. Resolution approving the Prioritization 6.0 Aviation Project Submittals
   d. Resolution approving the Prioritization 6.0 Bicycle and Pedestrian Project Submittals
   e. Resolution approving the Prioritization 6.0 Public Transportation Project Submittals
   f. Resolution approving the Prioritization 6.0 Roadway Project Submittals
   g. Resolution approving the Prioritization 6.0 Rail Project Submittals
   h. Resolution supporting the Wilmington Urban Area Metropolitan Planning Organization Bicycle and Pedestrian Advisory Committee’s Electric Bicycle Model Ordinance
   i. Resolution approving 2018-2027 and 2020-2029 STIP/MPO Transportation Improvement Program Administrative Modifications #20-3 and #20-4
   j. Opening of the 45 day public comment period for the Public Participation Plan
   k. Opening of the 30-day public comment period 2020-2029 STIP/MPO Transportation Improvement Program Amendment #20-3
   l. Resolution supporting the Gullah Geechee Heritage Corridor Multi-use Greenway/Blueway Trail
   m. Resolution amending award of Section 5310 Community Grant Project Funds

Vice-Chair Batleman made a motion to approve the Consent Agenda, Items 7a through 7m, excluding Items 7g and 7l. Mr. Zapple seconded the motion, and it carried unanimously by roll-call as follows:

Regarding Item 7g, Vice-Chair Batleman inquired if the Cape Fear Memorial Bridge Replacement was intertwined with the rail component. Mr. Kozlosky responded that they could be done separately or together; although, some cost benefits could be realized if they were done simultaneously. He noted that staff has proposed some additional language regarding constructing rail across the Cape Fear River between the North Carolina Port of Wilmington and the Davis Yard, and constructing the rail improvements as a standalone project as well in order to cover all the bases for submitting projects.

Following further consideration, Vice-Chair Batleman made a motion to approve the Prioritization 6.0 Rail Project Submittals as amended. Mr. Zapple seconded the motion and it carried unanimously by roll-call as follows:

Mr. Zapple inquired about the Statewide Transportation Improvement Program (STIP) Administrative Modifications, particularly the Lendire Road Project. Mr. Kozlosky responded that the state is seeking the use of federal funds to complete the project expeditiously.

Following further discussion, Mr. Zapple made a motion to approve the 2018-2027 and 2020-2029 STIP/MPO TIP Administrative Modifications #20-3 and #20-4. Vice-Chair Batleman seconded the motion and it carried unanimously by roll-call as follows:
8) **Old Business**

a. **Resolution authorizing the Executive Director to enter into an Inter-local Software Usage Agreement for the Rideshare Matching, Commute Calendar & Incentive Software Contract**

   Mr. Kozlosky stated that in February, staff presented a resolution authorizing the Executive Director to enter into an inter-local agreement with GoTriangle for rideshare matching, commute calendar and incentive software. He noted that in response to concerns expressed by Commissioner Zapple, Attorney Matt Nichols reached out to Go Triangle to inquire about any issues relating to liability, and was unable to find any. However, in order to protect the MPO and the Board, staff has sought to acquire some general liability insurance and is in the process of purchasing it.

   Vice-Chair Batleman made a motion to approve the Executive Director entering into an agreement with GoTriangle. Mr. Forte seconded the motion, and it carried unanimously by roll-call as follows:

   **Ayes:** David Piepmeyer, Pat Batleman, Neil Anderson, Mike Allen, John Ellen, Hank Miller, Rob Zapple, Mike Forte, and Eulis Willis. **Nays:** None. **Absent:** Neil Anderson, Charlie Rivenbark, Woody White, LeAnn Pierce, and Landon Zimmer.

9) **Discussion**

a. **Proposed revisions and summary of public comments for Cape Fear Moving Forward 2045**

   Ms. Lorenzo gave a brief overview of the two-year timeline of the Cape Fear Moving Forward 2045 Plan culminating with the 30-day public comment period, which opened on February 26th and was advertised per the adopted Public Participation Plan. She noted that of the five regional open houses that were scheduled, three were canceled due to COVID-19 precautions. As a result, the public comment phase was extended through May 15th and written comments were received via mail or e-mail.

   Chairman Piepmeyer inquired if the missed open houses could be rescheduled. Ms. Lorenzo expressed concerns regarding existing COVID-19 precautions and meeting the required timeline for the plan adoption.

   Chairman Piepmeyer suggested that an extension be sought to match the time lost due to the pandemic. Mr. Kozlosky pointed out that the initial 30-day public comment period, extended from March 22nd to May 15th was intended to compensate for the missed open houses.

   Chairman Piepmeyer requested that virtual open houses to be held and advertised online at [www.WMPO.org](http://www.WMPO.org). Mr. Zapple concurred.

   Ms. Lorenzo gave an overview of the public comments received and staff’s proposed revisions to the plan. She stated that three comments warranted changes to the fiscally constrained project lists. She noted that two comments relating to the roadway element led to a revised cost estimate that enabled the addition of five projects to the fiscally constrained roadway project list, as follows:

   1. RW-222 Independence Widening (Carolina Beach Road to River Road),
   2. RW-42 US 17 Access Management Improvements,
3. RW-175 NC 210 and Island Creek Road Intersection Improvements,
4. RW-57 Plantation Road Extension, and
5. RW-36 NC 210 NC 133 Intersection.

Ms. Lorenzo stated that the third comment pertained to the bicycle and pedestrian element, and expressed concerns regarding several fiscally constrained projects that were already part of roadway projects anticipated for funding. She noted that staff reviewed the list and recommends removal of standalone bicycle and pedestrian projects that are complete or are anticipated to be committed for funding as part of roadway projects (BP-16, BP-574, BP-647, BP-788, BP-722, BP-581, BP-646, BP-648, and BP-577). However, those in the STIP (Statewide Transportation Improvement Program), but not under design yet, remain on the fiscally constrained bicycle and pedestrian project list. Based on the remaining ranked projects and revenues made available by those removed, additional projects are recommended for inclusion in the fiscally constrained bicycle and pedestrian list.

Ms. Lorenzo stated that staff also recommends adding information to the appendices regarding the second phase of public involvement, proposed scopes (aviation, ferry/water transportation, freight/freight rail, and public transportation) and cross sections (bicycle/pedestrian, and roadway) for the fiscally constrained projects. Additionally, the Environmental Justice and Critical Resources Appendix will include an expanded degree of impact analysis to include fiscally constrained bicycle/pedestrian and public transportation projects, an estimate of the distribution of impacts in the four levels of the assessment, and a table of benefits, burdens, and mitigation strategies for project impacts.

Ms. Lorenzo stated that next steps will include bringing forward the final draft of the plan in July, presenting the final draft to our member jurisdictions in August and September, and presenting the final plan to the MPO Board for adoption in October.

Mr. Kozlosky stated that the three rescheduled virtual public meetings will be added to the public outreach efforts for this plan. He noted that if necessary, staff will reach out to the Federal Highway Administration to request an extension.

b. NC House Bill 77

Mr. Kozlosky stated that House Bill 77 will modify NCDOT’s revenue projections resulting from the COVID-19 pandemic, will put in place some fiscal controls, and will modify appointments to the North Carolina Board of Transportation. He noted that the Bill passed the Senate last week, passed the House this afternoon, and was sent to the Governor, who is expected to sign this Bill that is designed to get NCDOT above the cash floor and get projects moving again.

Mr. Kozlosky stated that on the downside, House Bill 77 will decrease revenues for the State Maintenance Assistance Program (SMAP) And Rural Operating Assistance Program (ROAP), which are transit funds. He noted that for this region, the transit agency received $6.8 million from the CARES Act, which will help supplant what was lost. He added that the House has heard from a number of transit agencies statewide regarding the loss of the SMAP funds, and will discuss the matter further, separate from this Bill after July.

Chairman Piepmeyer expressed concerns regarding the restructuring of the Transportation Board and what it will mean for the MPO.
Mr. Kozlosky responded that the Governor will appointment the Division members for each of the 14 divisions. He noted that the number of at-large members has been increased from five to six: three of which will be appointed by the President Pro Tem of the Senate and three by the Speaker of the House (two starting in 2020, the other in 2022, for each). Plus, an ex-officio Local Government Commission representative will serve on the Board of Transportation’s Audit Committee, and criteria will exist for serving as a member on the Board of Transportation.

Chairman Piepmeyer expressed concerns regarding the restructuring, specifically the even number of voting members, and the six members appointed by the legislature, who might likely represent Mecklenburg or Wake County. Mr. Forte concurred.

Mr. Zapple proposed that a letter of concern be sent to the local delegates. Chairman Piepmeyer proposed that the letter be included in the list of MPO priorities.

In response to an inquiry by Mr. Zapple regarding the staggered terms, Mr. Kozlosky stated that Division 3’s appointment would begin in 2020. He expressed doubt that it would affect current funding for the Wilmington International Airport.

c. **Identification of MPO Priorities**

Mr. Kozlosky stated that since the last meeting, staff sent a letter to the Speaker and the President Pro Tem requesting the use of budget surplus funds to assist the Department and referencing a forthcoming letter to identify the MPO’s priorities for when NCDOT rises above its cash floor. He noted that staff consolidated the priorities provided by seven of the MPO Board members, and included a count for each priority. He added that a memo is included in the agenda packet for the Board to consider how the follow-up letter should be composed, including how to proceed with some of the Locally Administered Projects.

Chairman Piepmeyer suggested including only the top-five projects in order of priority.

Vice-Chair Batleman requested that the Cape Fear Memorial Bridge be included in the list as the sixth priority.

Chairman Piepmeyer expressed concerns regarding the risk of including such a costly project.

Mr. Anderson suggested that the list be held to consider how to streamline it.

Chairman Piepmeyer expressed concerns regarding the delay. Mr. Anderson suggested that it might not require waiting until the next Board meeting before sending the letter.

Mr. Zapple pointed out that the Cape Fear Memorial Bridge has a ten-year clock ticking. Vice-Chair Batleman concurred, and commented that the bridge also needs to be a higher priority.

Chairman Piepmeyer reiterated his concerns regarding the dollar amount of the bridge and how it may obscure other items on the list.

Mr. Kozlosky stated that staff will send out an e-mail requesting that Board members submit their top five projects by Sunday, and that no response will be interpreted as no change necessary.

10) **Updates**

a. **Wilmington Urban Area MPO**

b. **Cape Fear Public Transportation Authority**

c. **NCDOT Division**
d. **NCDOT Transportation Planning Division**

Mr. Kozlosky stated that the updates are included in the agenda packet.

In response to an inquiry by Mr. Zapple regarding Update Item 10d, Mr. Kozlosky stated that the Department of Motor Vehicles’ (DMV) revenues impact DOT revenues.

Mr. Zapple pointed out that this may be a delay only and that it will also impact county tax revenues in the short term. Mr. Kozlosky stated that a reduction amount has been included in HB77 for the DMV.

11) **Announcements**

   a. **Next MPO Board meeting - July 29th**

12) **Adjournment**

With no further items, Vice-Chair Batleman made a motion to adjourn the meeting. Mr. Zapple seconded the motion and the meeting was adjourned unanimously at 4:26 p.m. by roll-call as follows:

   **Ayes:** David Piepmeyer, Pat Batleman, Neil Anderson, Mike Allen, John Ellen, Hank Miller, Rob Zapple, Mike Forte, and Eulis Willis. **Nays:** None. **Absent:** Charlie Rivenbark, Woody White, LeAnn Pierce, and Landon Zimmer.

Respectfully submitted,

Mike Kozlosky
Executive Director
Wilmington Urban Area Metropolitan Planning Organization

PROJ.CATEGORY: VARIOUS, HIGHWAY-RAIL GRADE CROSSING SAFETY IMPROVEMENTS IN DIVISION 3.

PROJECT ADDED AT REQUEST OF RAIL DIVISION; INDIVIDUAL PROJECTS AND FUNDING TO BE REQUESTED IN THE FUTURE AS NEEDED.
RESOLUTION APPROVING AMENDMENTS #20-1, #20-2 AND #20-3 TO THE 2018-2027 AND 2020-2029 STATE /MPO TRANSPORTATION IMPROVEMENT PROGRAMS

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization provides transportation planning services for the City of Wilmington, Town of Carolina Beach, Town of Kure Beach, Town of Wrightsville Beach, Town of Belville, Town of Leland, Town of Navassa, New Hanover County, Brunswick County, Pender County, Cape Fear Public Transportation Authority and the North Carolina Board of Transportation; and

WHEREAS, the Board has found that the Wilmington Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner; and

WHEREAS, the North Carolina Board of Transportation adopted the 2018-2027 State Transportation Improvement Program on August 3, 2017 and the Wilmington Urban Area Metropolitan Planning Organization Board adopted the Statewide/MPO Transportation Improvement Programs on August 30, 2017; and

WHEREAS, the North Carolina Board of Transportation adopted the 2020-2029 State Transportation Improvement Program on September 5, 2019 and the Wilmington Urban Area Metropolitan Planning Organization Board adopted the Statewide/MPO Transportation Improvement Programs on October 30, 2019; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization desires to amend the adopted 2018-2027 and 2020-2029 State/MPO Transportation Improvement Programs for Amendments #20-1, #20-2 and #20-3; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization has conducted a 30-day public comment period to receive citizen input on this proposed amendment.

NOW THEREFORE, be it resolved that the Board of the Wilmington Urban Area Metropolitan Planning Organization hereby approves amending the 2018-2027 and 2020-2029 State/MPO Transportation Improvement Programs for Amendments #20-1, #20-2 and #20-3.

ADOPTED at a regular meeting of the Wilmington Urban Area Metropolitan Planning Organization’s Board on July 29, 2020.

Amended July 29, 2020
RESOLUTION SUPPORTING AMENDMENT #1 TO THE FISCAL YEAR 2021 UNIFIED PLANNING WORK PROGRAM OF THE WILMINGTON URBAN AREA METROPOLITAN PLANNING ORGANIZATION

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization provides transportation planning services for the City of Wilmington, Town of Carolina Beach, Town of Kure Beach, Town of Wrightsville Beach, Town of Belville, Town of Leland, Town of Navassa, New Hanover County, Brunswick County, Pender County, Cape Fear Public Transportation Authority and the North Carolina Board of Transportation; and

WHEREAS, the Fiscal Year (FY) 2021 Unified Planning Work Program documenting the comprehensive and continuing transportation planning program in the Wilmington Urban Area was adopted by the Wilmington Urban Area Metropolitan Planning Organization’s Board on February 26, 2020; and

WHEREAS, the need for amendments to the FY 2021 Unified Planning Work Program has subsequently been evaluated and justified in order to effectively advance transportation planning for FY 2021; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization can amend the FY 2021 Unified Planning Work Program to cover any anticipated expenditures for the fiscal year; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization proposes amendments to the FY 2021 Unified Planning Work Program to reflect current and anticipated expenditures.

NOW THEREFORE, be it resolved that the Board of the Wilmington Urban Area Metropolitan Planning Organization hereby approves Amendment #1 to the FY 2021 Unified Planning Work Program.

ADOPTED at a regular meeting of the Wilmington Urban Area Metropolitan Planning Organization’s Board on July 29, 2020.

Mike Kozlosky, Secretary
RESOLUTION SUPPORTING THE SUBMITTAL OF CASSI DEPLOYMENT APPLICATIONS FOR DEPLOYMENT IN THE CITY OF WILMINGTON AND TOWN OF CAROLINA BEACH

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization provides transportation planning services for the City of Wilmington, Town of Carolina Beach, Town of Kure Beach, Town of Wrightsville Beach, Town of Belville, Town of Leland, Town of Navassa, New Hanover County, Brunswick County, Pender County, Cape Fear Public Transportation Authority and the North Carolina Board of Transportation; and

WHEREAS, in an effort to maintain and enhance the transportation infrastructure and quality of life enjoyed by the citizens and visitors of the Wilmington region, the Wilmington Urban Area Metropolitan Planning Organization is committed to working in partnership with our colleagues, other governmental entities and local, state, and federal delegation; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization wishes to apply for a grant in partnership with the North Carolina Department of Transportation to be a CASSI Deployment Partner; and

WHEREAS, CASSI, also known as Connected Autonomous Shuttle Supporting Innovation is a fully autonomous vehicle that is capable of transporting small numbers of people over small distances, has partnered with NCDOT for deployment programs at two sites in North Carolina during a three-month period; and

WHEREAS, NCDOT and CASSI are looking for routes that will be valuable as studies of autonomous vehicles and technology; and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization wishes to apply for the deployment of CASSI in either the City of Wilmington and Town of Carolina Beach during the summer months of 2021; and

WHEREAS, this is a great opportunity to introduce an exciting new transportation method that combines advancing technology with alternative transportation that would uniquely reach both residents of the Wilmington Urban Area Metropolitan Planning Area Boundary as well as the thousands of visitors that come to the area each Summer; and

WHEREAS, in addition, this effort would increase the use of multi-modal transportation options in the MPO’s planning area; and

WHEREAS, the deadline for this application is July 31, 2020.

NOW THEREFORE, be it resolved that the Board of the Wilmington Urban Area Metropolitan Planning Organization hereby supports the submittal of the CASSI Deployment Applications for deployment in the City of Wilmington and the Town of Carolina Beach.

ADOPTED at a regular meeting of the Wilmington Urban Area Metropolitan Planning Organization’s Board on July 29, 2020.
David Piepmeyer, Chair

Mike Kozlosky, Secretary
This must be a mistake for the Old Fayetteville Road project. $35 million for widening 2 existing lanes for 1.5 miles. A similar project on page 317 that is twice as long, to widen and install a bike lane on Blue Clay Road, is $1.4 million.

Utilizing NCDOT's Prioritization cost estimation tool, the project cost was estimated to be $2,260,000 in 2020. With the additional costs, it is now estimated to be $2,760,000. Rounding for new construction cost estimation tool, it is now estimated to be $3,000,000.

Update revised cost estimate in tables and cutsheets. Recommend addition of RW-222, RW-42, and RW-175 to fiscally constrained roadway project list.

The path for the NC 133 to Hwy 17 Connector project will not likely run through the existing Jackies Creek neighborhood. Revise maps as recommended.

Looking at the top Bike/Ped projects in the Fiscally Constrained tables (pages 35 to 37) it does seem that the Northeastern section of the WMPO region is underrepresented. However, that is the section that has the greatest projected growth (Page 31).

Several bicycle and pedestrian facilities are committed for funding, in design, and/or under construction in the northeastern section of the WMPO region. These projects make them eligible to be included in the roadway design per NCDOT's 2019 update to its Complete Streets policy.

No changes are recommended.

In a separate e-mail to Caitlin Marks (cc to you) I have asked about the status of a MUP along the Military Cutoff Extension. I do not think this was included in any of the 2045 Plan BP priorities…but maybe that is an NCDOT project?

The design includes a 9' MUP from Ogden Park Dr to approx. Plantation Rd. design plans are available. This project is included in the New Hanover County Greenway Plan.

Included in NCDOT design for current STIP project (U-4902), no changes recommended.

Also in the Fiscally Constrained projects in the 2045 plan is the absence of any Bike/Ped Facilities: on Sidbury Road. Again, this may be an NCDOT project and I have identified this requirement to Caitlin in a separate e-mail.

This project was considered for inclusion as a fiscally constrained bicycle and pedestrian improvement project. Of the approved projects in this section, Sidbury Road Improvements cross section from bike lanes and sidewalks to a multi-use path to be consistent with Wilmington/New Hanover County Greenway Plan cross section.
I'd like to understand the table at bottom of the first page of "Bicycle and Pedestrian" (pg 35) better. Maybe the plan can elaborate. It indicates a number of ped/bike infrastructure improvements which NC DOT will fund if they are "In Plan". In plan/Whose plan? How to we move S ... ion of On road bike facilities (I assume these are bike lanes) and Pedestrian facilities (I assume these are cross walks).

The text above the NCDOT Complete Streets Cost Share chart on page 50 explains that alternative transportation projects which are approved by the TSMO Implementation Team and/or the MTP can be included in NCDOT roadway projects and will be fully funded by NCDOT. NCDOT will consider other locally adopted plans on two conditions: 1) the planned facility addresses an identified transportation need; and 2) the planned facility meets the design guidance standards in the NCDOT Complete Streets Implementation Guide.

On-road bicycle facilities include bicycle lanes (protected or striped) as well as paved shoulders. Pedestrian facilities include sidewalks, marked crosswalks, bike paths, MUPs, and bike lanes. Please refer to the proposed project cross-sections found in Appendix J, Roadway Element.

Add underlined text to plan, along with a couple of examples of the Cost Share Formula (in graphic format). We are adding project cross-sections to better explain exactly what type of facilities are included with each bicycle and pedestrian project.

Roadway Plan Element Wayne Marquino Citizen (Wilmington) pg 45 - something seems wrong with the graphic or legend - Aren't the black roads county? There are no county roads in the legend, on NCDOT Counties actually do not own and maintain roads, so those that are outside of the incorporated areas are all NCDOT owned and managed.

No changes are recommended.

TSMO Wayne Marquino Citizen (Wilmington) pg 50 - "Cape Fear Moving Forward 2045 recommends the implementation of the following TSMO strategies in the Wilmington region:..." This process is how we get new major roadways built like MLK or improved like 17 in Hampstead with no bike lanes.

TDM is a TSMO strategy which the WMPO believes is both important enough and broad enough to deserve its own section within Chapter 5 as well as its own Appendix (Appendix M, Transportation Demand Management Element).

Several of the TSMO strategies listed on page 50 improve bicycle and pedestrian safety. Access management techniques can reduce conflict points and crossing distances for pedestrians. The TDM Strategy of implementation is also consistent with the CMPSC which outlines that bicycle and pedestrian safety is the responsibility of the local planning body, the Wilmington Area Comprehensive Plan. See Appendices L, Transportation Systems Management and Operations Element for more information on these strategies.

No changes are recommended.

Roadway/BikePed Fiscally Constrained Projects Wayne Marquino Citizen (Wilmington)

Fig 7-1 Map of Fiscally Constrained Projects - There are few/no green lines parallel to red lines (bike/roadway) projects. Are there any projects in the FAA corridor there parallel to the red one? If the CF Memorial bridge is replaced will it provide bicycle and pedestrian access to Leland?

The fiscally constrained roadway projects include bicycle and pedestrian facilities, such as MUPs, sidewalks, and bike lanes. On the other hand, the US 76/Cape Fear Memorial Bridge Replacement (RW-127) includes a proposed 10' MUP.

No changes are recommended.

These maps are zoomed in closer than the other views of these portions of NHC, making the titles inaccurate (specifically, the projects between Monkey Junction and Snows Cut). It looks like the full scale is shown on the maps on p. 93 and 94.

Review and revise map titles once all edits have been completed. It was not possible to print every map at the exact same scale. The scales had to be adjusted depending on the area and mode shown for legibility.

An "e" needs to be added so the public outreach community reads "Royal Palms Mobile Home Park." Revise text as suggested in comment.

Class II should be EA's and Class III CE's as stated in the paragraph at the top of the page. (Page 403) Revise text as suggested in comment.

Depressed roads and tunnels are not viable options in the coastal plain. (Page 405) Remove these two mitigation measures from chart.

In this section I would emphasis that the WMPO first commitment is to avoid or minimize impacts to the natural and built environment. Mitigation for unavoidable impacts would be the second step. (Page 404) Revise text as suggested in comment.

The widening of Independence Blvd between River Road and US 421/Carolina Beach Road is recommended for inclusion in the draft roadway fiscally constrained project list. Project funding will still need to be identified for these projects.

No changes are recommended.

This table originated from a collaboration between the Piedmont Triad MPOs and FHWA’s North Carolina Division circa 2008. We have been working to update it.

Revise text as suggested in comment. Review entire section to ensure all instances of this wording are revised.

We believe this table originated from a collaboration between the Piedmont Triad MPOs and FHWA’s North Carolina Division circa 2008. We have been working to update it.

Revise text as suggested in comment.

I would define where the wetland layer on pg 408 comes from as a footnote, again explaining it is based off a predictive model not known locations of wetlands.

Confirm source of layer with GIS Analyst, add suggested footnote to text.

Correct minor formatting errors in CAC Foreword (double spaces between sentences); CAC heading in Acknowledgements should read “Citizens Advisory Committee.” Make suggested changes.

Correct minor formatting, typographical, and grammatical errors. Ensure consistency with acronym use (define once per chapter/appendix, then use acronym) Make suggested changes.
I live in the Del Web Riverlights neighborhood, which is located on River Road between Independence Boulevard and Lorraine Street. I understand the needs of commuters, and the increase in the number of people in our city. It is very concerning that the only access to the neighborhoods is through these roads. A number of residents and business owners are concerned about this issue. I think that the widening of Independence Blvd between River Road and US 421/Carolina Beach Road is recommended for inclusion in the draft roadway fiscally constrained project list. Project funding will still need to be identified for these projects. No changes are recommended.

Andy McGlinn
Citizen (Wilmington)

Good morning, I appreciate the opportunity to make comments on this plan. I have a few and while they are not specific to a single project, they are connected and relevant.

Congestion is an outcome of our increased car reliance and our built environment. New roadways or wider roadways will not fix this. The only thing that will fix it is less cars on the road. I do think the public transit system can be made more attractive to riders. Some funding needs to be identified for improvements to public transit. I also believe the MPO, along with the city and counties should advocate for dedicated funding for public transit.

A major factor that is given little attention is that we have built ourselves into this situation. Sprawl is given little attention, yet is a main driver. I believe this report and platform can be used to advocate for how we build our area. A more dense concentration along existing traffic corridors would be ideal. This would be a way to increase the attractiveness of public transit and break the cycle of a car centered planning process.

I do appreciate the breadth and depth of this report. Transportation will continue to be a major concern for people for a long time. But, the MPO should take a lead role in advocating for how we build for the future.

We address these concerns throughout the plan. The plan acknowledges the need for a dedicated funding source for Wave Transit and the need for investment in public transit. Refer to pages 41-42 of the plan document as well as Appendix J, Public Transportation Element.

The plan also discusses the need to coordinate transportation and land use planning, including Transit-Oriented Development (TOD). Refer to pages 375-376 of Appendix L, where it is recommended that WMPO member jurisdictions encourage TOD where appropriate through their land use plans. The plan also recommends support of transit-oriented development through comprehensive plans and land use plans. Refer to page 35 of the plan document and pages 372-373 of Appendix L.
There is no safe access from the current Military Cutoff MUP to the MUP that is planned from the Ogden Park area, running north along the Military Cutoff Extension. This situation can be somewhat eased in the following way:

1. Beginning at the intersection with Gordon Road, add a pedestrian/bicycle crosswalk on Market Street to facilitate non-vehicular traffic between the Ogden Elementary school and Ogden Park.

2. Add a crosswalk on Military Cutoff at the intersection with Gordon Road between the SE corner and the SE W corner.

The location of these crosswalks is shown on the attached PowerPoint chart. Please confirm that these crosswalks are included in the NCDOT project plans.

They would serve pedestrians and cyclists who are attempting to cross both roads and facilitate non-vehicular travel between shopping centers, healthcare facilities, residential areas, and a school. We also hope that NC DOT planners are taking into consideration that this area is part of the planned interstate East Coast Greenway (Complementary Historic Coastal Route) alignment.

Underlying this is a concern that the traffic modifications along Gordon Road including both intersections at Military Cutoff and at Market Street are not following "Complete Street" guidelines. This is an area that features a Food Lion, Planet Fitness, Walgreens, CVS, McDonalds, and a number of other restaurants and businesses. The Military Cutoff MUP serves "active modes of transportation" (pedestrians and cyclists) and connections to an extensive range of residential areas, this proposal connects it to Ogden Park and beyond.

NCDOT, in coordination with New Hanover County and the WMPO, has programmed funding for the proposed improvements outlined above for the 2020-2029 STIP. However, funding for three of these projects has been included as the Transportation Alternatives Projects, not the Transportation Investment Program. The BikePed projects were included in the project list due to the anticipated demand for additional bicycle and pedestrian facilities. However, these projects are not being carried forward by the Bicycle and Pedestrian Project Review Panel, which recommends that the funds be reallocated to other projects.

No changes are recommended.

Bicycle and Pedestrian Fiscally Constrained Projects
Terry Benjey Bicycle Foundation
Bicyclist Advocacy Group

Safe cycling via Market Street to Porters Neck, Scotts Hill, and through Hampstead

NCDOT, in coordination with New Hanover County and the WMPO, has programmed funding for the proposed improvements outlined above for the 2020-2029 STIP. However, funding for three of these projects has been included as the Transportation Alternatives Projects, not the Transportation Investment Program. The BikePed projects were included in the project list due to the anticipated demand for additional bicycle and pedestrian facilities. However, these projects are not being carried forward by the Bicycle and Pedestrian Project Review Panel, which recommends that the funds be reallocated to other projects.

No changes are recommended.

Freight Rail Appendix
Stephanie Ayers
NC Port of Wilmington/TCC Member

Would request in the appendix, we add this language somewhere. This would really help us with federal grant applications. We have had to push back on this for some time. We can add this text in the appendix later.

This is a large project that could support the development of new markets. The plan is to license the new terminal in 2022 and the terminal can match or exceed the targeted annual throughput. In total, the five-year infrastructure investment plan requires $250 million in support of the expansion plan at NC Ports.
No changes are recommended.

RW‐7, Lanvale Road NE Widening, includes two additional travel lanes and a 10’ MUP. Please refer to page 337 in Appendix J, where this fiscally‐constrained roadway project is detailed and mapped.

NCDOT Division 3 is moving forward with the installation of a traffic signal at this location utilizing monies from the high impact, low cost funding source.

There is a roadway modernization for Old Fayetteville Road included in the fiscally‐constrained project list (RW‐78). The anticipated let date is April 14, 2022. Please note that this schedule is subject to change until further notice.

RW‐51, NC133/River Road SE Widening, includes two additional travel lanes, a median, and a 10’ MUP. Please refer to page 343 in Appendix J, where this fiscally‐constrained roadway project is detailed and mapped.

RW‐77, Basin Street Extension, is a proposed new road on new location that would connect Old Fayetteville Road to Village Road NE. Please refer to page 322 in Appendix J, where this fiscally‐constrained roadway project is detailed and mapped.
In response to revised Mitigation Measures chart:

I like the revision (as I know DWR and the USACE thinks wetland creation usually fails). I wonder if you might want to add the following to the Mitigation Measures chart:

- Wetland preservation to help control flooding
- On-site wetland restoration

"On-site wetland restoration" should be separate.

Add "Wetland preservation to help control flooding" to Mitigation Measures chart.

The widening of Independence Blvd between River Road and US 421/Carolina Beach Road is recommended for inclusion in the draft roadway fiscally constrained project list. Project funding will still need to be identified for these projects.

No changes are recommended.

A separate bike lane or MUP across Eagle Island and the Brunswick River roughly parallel to US 17/74/76 was included within the top-ranked bicycle and pedestrian project (BP-268). The most recent fiscally constrained roadway projects include a separated multi-use path within their cross sections for this connection.

No changes are recommended.

Extend the existing Independence Blvd bike path from the CAM to River Road.

The Independence Blvd MUP Ph.2 (between US 421 and S. 17th Street) is included within the BikePed fiscally constrained project list. The Independence Blvd Phase 3-7 SW-373 and Independence Blvd Widening SW-372 include a 10' multi-use path as part of their identified cross sections.

No changes are recommended.

</table>
There is a need for more bicycle and pedestrian infrastructure. Specifically, the lack of connectivity between sidewalks and bike lanes is a problem. There needs to be a great deal more of walkable and bikeable infrastructure, at schools and businesses especially.

WMPO staff agrees there should be more attention to multimodal travel in future years and believe the 2045 MTP reflects that. Staff recommends updating the 2014 Transportation Bond Report to include feedback to the Wilmington City Council to continue the many improvements that came from the 2014 Transportation Bond.

No changes are recommended.

A southern bridge connection still needs to be implemented as well as a ferry between New Hanover and Brunswick Counties. The southern bridge connection should have bicycle and pedestrian facilities.

The Cape Fear Crossing project is discussed and supported within the plan and includes bicycle and pedestrian facilities. The project is supported as a toll facility and includes the ferry stop and Independence Blvd ferry terminal.

No changes are recommended.

There needs to be a public transportation route that connects CFCC's downtown and north campuses, as well as a route offering service to the airport on the weekends.

Weekend service for Wave's route 207, which currently provides service from downtown Wilmington to ILM and CFCC's north campus, needs to be improved. Staff recommends working with Wave Transit to identify alternative funding opportunities to fund increasing route frequency and operating hours.

No changes are recommended.

There needs to be access from US 74/76 in Leland to Old Fayetteville Road to provide connectivity to the schools located there.

An interchange on US 74/76 at Old Fayetteville Road in Leland is included in the Roadway fiscally-constrained project list.

No changes are recommended.

The Isabel Holmes Flyover project (U-5731) will be the construction of a trumpet interchange at the intersection of US 421 and US 74/NC 133.

No changes are recommended.

The US 17 Superstreet project (U-5732) is located in Hampstead. The US 17 Access Management project (RW-42) is a proposed superstreet in Brunswick County from the terminus of the existing superstreet at Carol Lynn Road to the WMPO Boundary.

No changes are recommended.

There are no projects at this time to make US 17 an interstate. The designated route of Interstate 74 is proposed to run over the Cape Fear River. The North Carolina Department of Transportation and the US Army Corps of Engineers agree that this would be a better route, as the Cape Fear River is a major flood plain.

No changes are recommended.

The proposed widening of NC 133/River Road (RW-51) terminates at Rabon Way. The widening of further portions of NC 133 towards Southport are outside of the WMPO Planning Boundary.

No changes are recommended.
Roadway Fiscally Constrained Projects

John Smist WECT

What are the biggest priorities addressed by the plan relating to motor vehicles?

The fiscally-constrained roadway projects are ranked based on priority and address some of the biggest transportation issues, including the Cape Fear Memorial Bridge, Independence Blvd Extension, and projects at MLK Jr Pkwy & Kerr Avenue and Market Street & Eastwood Road, as well as the Independence Blvd Extension. No changes are recommended.

Overall Plan Content

John Smist WECT

This plan will replace Cape Fear Transportation 2040; how different is this plan from the 2040 plan and what has changed?

The 2045 plan is in many ways an update to the 2040 plan, and includes many of the same projects and similar policies. The plan includes a focus on innovative technologies, and resiliency. It also reflects an update to regional priorities in terms of projects and policies. No changes are recommended.

Public Outreach Appendix

John Smist WECT

Has the amount of public input and response changed between 2040 and 2045?

Current WMPO staff was not involved in the development of the 2040 plan, but based on records it appears there was a slight increase in public response to public outreach since 2040. No changes are recommended.

Roadway Fiscally Constrained Projects

Rob Zapple

NHC Commissioner/WMPO Board Member

The top priority projects are programmed for funding between 2020-2025. With NCDOT facing financial issues, how will that affect these projects?

The WMPO will continue to work with NCDOT to push top priority projects forward. It is still important to have this plan with detailed project information available for discussion in late February 2020. These impacts to historical funding trends will be considered in development of the next MTP update. No changes are recommended.

Roadway Fiscally Constrained Projects

Rob Zapple

NHC Commissioner/WMPO Board Member

Is the replacement of the Cape Fear Memorial Bridge included in this plan?

The replacement of the Cape Fear Memorial Bridge is included in the fiscally-constrained roadway project list. Although listed for funding in 2040, the WMPO will work with NCDOT to prioritize this project to address sooner. No changes are recommended.

Roadway Fiscally Constrained Projects

Rob Zapple

NHC Commissioner/WMPO Board Member

What about I-40 improvements for sections that were flooded during Hurricane Florence?

The portions of I-40 that were subject to flooding during Hurricane Florence are outside of the WMPO planning boundary. The WMPO Board did pass a resolution supporting resiliency project efforts that included portions of I-40. No changes are recommended.

Bicycle and Pedestrian Element

Cyndi Byrd

New Hanover County

There are planned bicycle improvements on Lendire. What will this project look like?

These improvements are part of the ongoing Military Cutoff Extension project and final plans can be obtained by contacting NCDOT Division 3. No changes are recommended.

Public Transportation Element

Cyndi Byrd

New Hanover County

I've lived here all my life and there has always been talk of rail lines to Raleigh or CLT, but nothing has been done.

The biggest continued challenge for passenger rail service to the Wilmington region has been the identification of a funding source. The WMPO Board supported the Cape Fear Memorial Bridge as a possible funding vehicle, with plans to provide passenger rail service to Raleigh and CLT. A resolution was passed in April 2014 supporting this effort. No changes are recommended.

Overall Plan Content

Charles Whitehurst

I'd like to know the major goals of this plan explained in a more layman's term; what is the money going to be used for?

The 2045 plan forecasts expected transportation funding based on historical funding trends. The projects contained within the plan are intended to provide long-term solutions for transportation needs. The WMPO will utilize the projects included within the plan to submit to NCDOT for prioritization. No changes are recommended.
Bicycle and Pedestrian Element

Andrew Donovan

New Hanover County

Opportunities to include bike-ped infrastructure should be maximized.

WMPO staff has heard numerous comments from the public echoing similar sentiments of multimodal mobility. NCDOT's updated ... facilities are included in the cross sections of all fiscally-constrained roadway projects included in this plan.

No changes are recommended.

Public Transportation Element

Andrew Donovan

New Hanover County

Encourage the development of a light rail transit system in Wilmington as well as the purchase of ROW.

Like passenger rail service, the greatest challenge to LRT is the identification of a funding source. LRT and commuter tra ... projects. However, traditional revenue sources disallowed for these projects to be included in the fiscally-constrained projects.

No changes are recommended.

Overall Plan Content

Thomas Rambach

Hello, my name is Thomas Rambach. I was watching the news and saw a segment regarding the virtual public meetings for Cape ... kes funding which always seems to come after the need for a transportation issue has become a critical congestion problem.

It seems like to me not enough focus is made on short term, low cost projects that can make incremental gains to fix our transportation and congestion issues. For example, I know I've read a NCDOT proposal where the intersection of Porters Neck Rd and US-17 would be made safer. However, the ... lack of two lanes, but the fact that a gas station with no turning lane is located at this intersection.

With a full parking lot, it takes a few seconds for each vehicle to enter the gas station. This prevents traffic from flowing through the intersection freely on a green light and only a very limited number of cars can make it through the light cycle. If a simple, low cost turning lane was added this intersection flow would improve by at least 25% guaranteed.

This is just one example and I'm sure you may receive suggestions like these from the general public often. I hope this email is used to encourage both the long term vision but also the simple, low cost, impactful changes that can add up to larger gains in easing our congestion issues.

The 2045 plan considered both current and future transportation needs during its development. While many of the projects in the current plan focus on improving capacity on major roadways such as U.S. 17 and U.S. 70, some of these projects also suggest potential improvements to surrounding intersections and pedestrian facilities. NCDOT recommends various strategies to address congestion-related deficiencies along these corridors that align with TSMO solutions.

No changes are recommended.
MEMORANDUM

To: WMPO Board

From: Abby Lorenzo, Senior Transportation Planner

Date: July 22, 2020

Subject: Summary of Virtual Open Houses Public Comments and Final Recommended Changes to the Draft Cape Fear Moving Forward 2045 MTP

WMPO staff held three virtual open houses via Zoom on July 6th, 7th, and 8th, 2020 from 5pm to 7pm in order to receive final public comments regarding the draft Cape Fear Moving Forward 2045 Transportation Plan. Per the WMPO’s Public Participation Plan (PPP), a press release announcing the virtual open houses and information on how to review the plan and join the meetings, was sent to the WMPO’s media and planning partners. The information was also shared on the WMPO’s Facebook, Instagram, and Twitter accounts, as well as the organization’s website. Hard copies of the plan were available at the WMPO’s 10 member jurisdictions’ planning departments, as well as at all area libraries. An electronic copy of the plan was also available on the WMPO’s website.

During each of the three virtual open houses, WMPO staff were available to answer questions about the plan and its development, as well as note public comments for consideration in the final draft of the plan. There were 17 citizens total in attendance at the three virtual open houses. A total of 20 comments were recorded by staff. These comments were added to the previously submitted comments for the draft plan. As with the previously received comments, staff considered and provided responses to all additional comments.

The WMPO received a total of 87 comments from citizens and outside agencies/organizations. Additionally, WMPO staff reviewed the draft plan in great detail to identify typos, formatting, and other administrative errors. There were an additional 26 comments provided by staff, for a total of 113 comments. All comments are included as an attachment to this document, with the 20 new comments in red.

None of the additional 20 comments received by staff at the virtual open houses resulted in proposed staff recommended changes to the fiscally constrained project lists. There remain three comments that resulted in recommendations to amend projects within the Bicycle and Pedestrian and Roadway fiscally constrained project lists. These comments and staff recommended changes are summarized in the table below.
<table>
<thead>
<tr>
<th>Comment</th>
<th>Recommended Changes to Project List</th>
</tr>
</thead>
<tbody>
<tr>
<td>“This must be a mistake for the Old Fayetteville Road project. $35 million for widening 2 existing lanes for 1.5 miles. The Town’s project will install the multi-use path and widen one side of the road with 2 feet of asphalt and 2 feet of curb and gutter for about a mile of the road. The cost is currently projected at $2.2 million. A similar project on page 317 that is twice as long, to widen and install a bike lane on Blue Clay Road, is $1.4 million.”</td>
<td>Utilizing NCDOT’s Priortization cost estimation tool, the project cost was estimated to be $2,260,000 in 2020. With the application of a 3% annual inflation rate, project year cost estimate is $3,521,006. This cost amendment resulted in an additional funding available to fiscally constrain additional projects. Per the initial project rankings and the additional funds, the following projects can be added to the fiscally constrained roadway project list: RW-222 Independence Blvd Widening; RW-42 US 17 Access Management Improvements; RW-175 NC 210 and Island Creek Road Intersection Improvements.</td>
</tr>
<tr>
<td>“On the Fiscally-Constrained Bicycle and Pedestrian Project List, it appears that several projects (BP-581 (Carolina Beach Road &amp; College Road), BP-646 (College Road and Oleander Drive), BP-584 (College Road &amp; Monkey Junction Shopping Center Entrance), BP-577 (Bayshore Drive &amp; Market Street), BP-627 (Piner Road &amp; Myrtle Grove Road)) are already included in the design or recommended cross sections for roadway projects anticipated for funding prior to the anticipated funding year of the bike/ped projects. If there is not a need for this redundancy, approximately $113,800 (not considering inflation) could be freed-up, which could allow projects such as BP-147a (Central Blvd/Morningside Dr. Bike Lanes), the Front Street sharrows (BP-471 and 370), etc. to be funded.”</td>
<td>Staff reviewed the fiscally constrained bicycle and pedestrian list and recommends removal of standalone bicycle and pedestrian projects that are committed for funding as part of a roadway project or are complete. These are: BP-16, BP-574, BP-647, BP-788, BP-722, BP-581, BP-646, BP-648, and BP-577. Based on the remaining ranked projects and the revenue freed up by the removal of the previously listed 5 projects, the following are recommended for inclusion in the fiscally constrained list: BP-147A, BP-406, BP-442, BP-239, BP-471, BP-370, BP-441, and BP-561.</td>
</tr>
<tr>
<td>“There is a mistake in the cost estimate for RW-123, Burnett Boulevard Widening. $123,830,000 seems much too high.”</td>
<td>Utilizing NCDOT’s Priortization cost estimation tool, the project cost was estimated to be $4,202,000 in 2020. With the application of a 3% annual inflation rate, project year cost estimate is $8,798,055.</td>
</tr>
</tbody>
</table>
The change in cost estimate allowed for an additional project, RW-57 Plantation Road Extension and RW-136 NC210 & NC133 Intersection Improvements, to be added to the fiscally constrained project list.

WMPO Staff recommends the addition of the following content information:

</table>

The final steps of the development of Cape Fear Moving Forward 2045 are as follows:

- Approval by the Board in July of the final Cape Fear Moving Forward 2045 plan with staff recommended changes.
- Presentation of the final plan to the WMPO member jurisdictions in August and September.
- Final adoption of the plan by the Board in October 2020.
RESOLUTION APPROVING THE FINAL DRAFT OF THE CAPE FEAR MOVING FORWARD 2045 PLAN

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization provides transportation planning services for the City of Wilmington, Town of Carolina Beach, Town of Kure Beach, Town of Wrightsville Beach, Town of Belville, Town of Leland, Town of Navassa, New Hanover County, Brunswick County, Pender County, Cape Fear Public Transportation Authority and the North Carolina Board of Transportation; and

WHEREAS, the development and maintenance of a long-range or metropolitan transportation plan is a federal requirement of all Metropolitan Planning Organizations (MPOs) designated by the Federal Highway Administration (FHWA); and

WHEREAS, on November 18, 2015 the Wilmington Urban Area Metropolitan Planning Organization adopted the fiscally constrained Cape Fear Transportation 2040 Transportation Plan to serve as the MPO’s long range transportation plan; and

WHEREAS, the Metropolitan Transportation Plan must be updated every five years; and

WHEREAS, the plan shall "include both long-range and short-range program strategies/actions that lead to the development of an integrated intermodal transportation system that facilitates the efficient movement of people and goods;" and

WHEREAS, the Wilmington Urban Area Metropolitan Planning Organization is in the process of finalizing Cape Fear Moving Forward 2045 to meet the FHWA requirement; and

WHEREAS, a key component of the transportation planning process is public review and comment; and

WHEREAS, a public review and comment period was conducted during a publicized comment period resulting in staff recommendations for modifications to the draft Cape Fear Moving Forward 2045; and

WHEREAS, with the assistance of subcommittees of subject matter experts, the MPO has developed a final draft of Cape Fear Moving Forward 2045.

NOW THEREFORE, be it resolved by the Wilmington Urban Area Metropolitan Planning Organization’s Board hereby approves the final draft of Cape Fear Moving Forward 2045 with staff’s recommended changes.

NOW THEREFORE ALSO, be it resolved that Cape Fear Moving Forward 2045 plan will be considered by the Wilmington Urban Area Metropolitan Planning Organization Board for formal adoption in October 2020.

ADOPTED at a regular meeting of the Wilmington Urban Area Metropolitan Planning Organization Board on July 29, 2020.

STIP/MPO TIP Modification # 20-5

STATEWIDE - NEW HANOVER - U-5710A

NEW LOCATION, FROM SR 1409 (MILITARY CUTOFF ROAD) AT DRYSDALE DRIVE TO US 74 (EASTWOOD ROAD). ROADWAY ON NEW LOCATION. CONSTRUCTION FROM FY 21 TO FY 22.

To assist in balancing funds, delay construction from FY 21 to FY 22.

RIGHT OF WAY

FY 2020 - $1,870,000 (T)
FY 2022 - $4,800,000 (BGANY)
FY 2022 - $6,670,000 (39)

Proposed Revisions to 2020-2029 STIP/MPO TIP Programs
MEMORANDUM

TO: MPO Board Members

FROM: Mike Kozlosky, Executive Director

DATE: July 23, 2020

SUBJECT: MPO Funding Release Recommendation

The Wilmington Urban Area Metropolitan Planning Organization was designated as a Transportation Management Area (population over 200,000) in July 2012. With this designation came the responsibility to allocate Surface Transportation Block Grant Program- Direct Attributable (STBGP-DA) funds and Transportation Alternatives Set Aside-Direct Attributable (TASA-DA) funds. These funds total approximately $4 million annually and are awarded to the MPO’s member jurisdictions through our own application and prioritization process. The funds are used to implement locally important transportation infrastructure projects. There are currently 33 projects funded in the MPO’s planning area utilizing these funds.

Due to the North Carolina Department of Transportation (NCDOT) falling below the legislative cash floor, these projects were put “on hold” by NCDOT. MPO staff has been working diligently with the Federal Highway Administration and NCDOT to have some of these funds released for use by our members. The Department has agreed to release some Direct Attributable (DA) funding to the Wilmington Urban Area MPO in the amount of $754,302. They also agreed to release $262,482 in INFRA funds that is being made available and are required to be used for highways. This provides funding available for use by the MPO on these transportation projects in the amount of $1,016,784.

Staff has reviewed the current status of the DA funded projects and developed the below proposal to utilize these funds:

- Request NCDOT swap the INFRA funding for state DA monies so that all of these funds can be used for multi-modal transportation infrastructure improvements as opposed to some funds being used strictly for highways.
- New Hanover County opened bids but was not able to award the construction of the multi-use path from Oyster Lane to Middle Sound Village (U-5527C). Staff recommends
for New Hanover County to proceed with constructing this multi-use trail at a cost of $105,723 (MPO contribution $84,578).

- The City of Wilmington selected HDR to complete the building design for the Wilmington Multi-modal Transportation Center Phase 1B (U-6234). Once the building design and renovations are complete, this building will be used for the MPO’s new offices. Staff recommends proceeding with this building design at a cost of $316,731 (MPO contribution $253,385).

- The Town of Belville selected WithersRavenel to complete the designs for the Rice Hope Multi-use Path (EB-6025) and Belville Elementary Multi-use Path (EB-6026), but could not award these designs. The Rice Hope Multi-use Path project consists of the construction of an eight foot (8’) wide multi-use path located at the western side of NC 133 between Morecamble Boulevard and Rice Hope Run. The Belville Elementary Multi-use Path project consists of the construction of an eight foot (8’) wide multi-use path located along NC 133 connecting the north and south entrances of Hawks Water Development to Belville Elementary School. Staff recommends the Town of Belville proceed with the designs for these multi-use trail projects at an estimated cost of $73,650 (MPO contribution $58,920).

- The Town of Leland has projects U-5534D, I, J and K that have been bid and are presently in the process of re-bidding. The Old Fayetteville Road Multi-use Path (U-5534D) project is for the construction of a ten foot (10’) wide multi use path, separate but adjacent to Old Fayetteville Road, beginning at or around the corner of the Leland Town Hall Campus and ending at the driveway of the North Brunswick High School. The Leland Middle School Sidewalk (U-5534K) project is the construction of 5 foot wide concrete sidewalk adjacent to Old Fayetteville Road from Ricefield Branch Road to the US Hwy 74/76 overpass after Glendale Drive with connections to Leland Middle School and the surrounding neighborhoods. The Village Road Multi-use Path (U-5534I) project is the construction of an 8 foot wide concrete path from the connection at the Brunswick Center in Leland across the front of the library property, down Village Road, ending on the western edge of the First Baptist Church property before the Sturgeon Creek Bridge. The Old Fayetteville Road Pedestrian Loop (U-5534J) project is the construction of sidewalks in three locations: 1) The construction of an 8 foot concrete sidewalk along Village Road from Town Hall Drive to the apartment complex and widening the existing 5 foot sidewalk in front of the apartment complex to 8 feet. 2) The construction of a 6 foot sidewalk along Town Hall Drive from Village Road NE to the sidewalk that exists by the new Town Hall. 3) The construction of a 5 foot sidewalk along Old Fayetteville Road from the existing sidewalk in front of the apartment complex to Village Road NE. The U-5534I, J and K projects have been combined into a single project.

The total cost of these projects is estimated at $3,523,093. In order to construct the projects, temporary construction easements were required. The temporary construction easements purchased by the Town for U-5534D are set to expire on December 31, 2020 and for U-5534 I, J and K are set to expire on June 30, 2021. Based on the anticipated expiration of the temporary construction easements, staff recommends holding the remaining DA funds ($619,901) in a reserve in order to cover the re-imbursement costs for these projects by the Town of Leland.
This first release of funding is meant to restart project work again. The Department intends to release additional funding, but needs some time to see how successful their efforts are in utilizing bonding to restore their cash balances. As additional funds are released, staff will continue to evaluate the DA projects and provide recommendations to the Board for use of these previously awarded funds.
2045 METROPOLITAN TRANSPORTATION PLAN

Project Description/Scope: The Wilmington Urban Area Metropolitan Planning Organization is required by federal law to update the Metropolitan Transportation Plan every 5 years. The last plan was adopted by the MPO Board on November 18, 2015. The next update is required to be adopted by November 2020. This plan will guide the regional transportation priorities and actions, and be used for project selection in the State/Metropolitan Transportation Improvement Programs. The MPO Board appointed a Citizen Advisory Committee (CAC) to help guide the development of this plan. A four month public outreach period was held between April 3, 2018 and July 31, 2018. During this period, there were 2,287 transportation survey responses, 563 comments on the public input map tool, and 4,554 votes on map comments, totaling 7,404 responses collected. In July 2018, the six modal subcommittees began meeting with the initial task of developing modal goals and objectives, which were completed in October 2018 and officially adopted by the Board in November 2018. The Modal Subcommittees have completed scoring criteria, evaluation of projects and development of the draft policies. The CAC, TCC and Board received the financial forecasts and potential alternative funding sources in March 2019. The consultant completed the project cost estimates and alternative funding forecasts in June 2019. A red line, fiscal constraint analysis of ranked modal projects were prepared and presented by staff to the CAC, TCC, and Board in July. The WMPO Board proposed changes at its August meeting and adopted a resolution endorsing the amended draft project lists in September 2019. In November 2019 the Board passed a resolution to include the estimated toll revenues for the Cape Fear Crossing project within the fiscally constrained projects list as a supported alternative form of funding. The draft plan was released for a 30-day public comment period on February 26th, 2020 and five regional open houses were scheduled throughout the region. Due to the onset of restrictions caused by COVID-19, only two of the five in-person open houses were held and the public comment period was extended through May 15th, 2020. Additionally, WMPO staff held three virtual open houses July 6th, 7th, and 8th, 2020.

Next Steps:
• Revisions to draft plan based on public comments and approval by WMPO Board in Summer 2020
• Presentation of plan to WMPO members in September 2020
• Adoption of final plan in October 2020

SITE DEVELOPMENT REVIEW

Project Descriptions/Scope: The Wilmington Urban Area MPO assists with site development and Transportation Impact Analysis review for the MPO’s member jurisdictions. During the last month, staff has reviewed the following development proposals:

STBGP-DA/TASA-DA FY 2013 to Present STBGP-DA

U-5534C - WRIGHTSVILLE AVENUE/GREENVILLE AVENUE TO HINTON AVENUE
Project Descriptions/Scope: The project is for construction of intersection re-alignment improvements at the intersection of Wrightsville Avenue/Greenville Avenue and bike lanes and sidewalks along Greenville Avenue from Wrightsville Avenue to Hinton Avenue.

Project Status and Next Steps:
- Complete review of final design package and submit to NCDOT for review– Summer 2020
- NCDOT final design approval and City to request Construction Funds Authorization – Fall 2020
- Begin Construction – Early 2021

U-5534D - TOWN OF LELAND - OLD FAYETTEVILLE ROAD MUP
Project Descriptions/Scope: This project is for design and construction of a ten foot (10') wide multi use path, separate but adjacent to Old Fayetteville Road, beginning at or around the corner of the Leland Town Hall Campus and ending at the driveway of the North Brunswick High School.

Project Status and Next Steps:
- On April 15th, Ron Vancleef reported that Division Maintenance Engineer verified that 100% of the funds for the resurfacing project were available
- Construction authorization issued on or about 5/15/2020
- Town agreed to defer reimbursement
- Bid Date – July 9, 2020
- One bid received – Returned to bidder

U-5534F – CITY OF WILMINGTON – PARK AVENUE MUP – PHASE II
Project Descriptions/Scope: This project is for the design and construction of an off-road multi-use path between Audubon Boulevard and Kerr Avenue. The right of way certification was received November 2, 2016.

Project Status and Next Steps:
- Plans approved August 20, 2019
• Specification comments received September 24, 2019;
• NCDOT approved final bid proposal on 12/23/19; Utility/RR certification submitted and construction authorization requested on February 26, 2020
• Begin Construction – Summer 2020
• Complete Construction – Fall 2020

U-5534G –CITY OF WILMINGTON- HOOKER ROAD MULTI-USE PATH
Project Descriptions/Scope: The project consist of the construction of a 10’ wide multi-use path along Hooker Road from Wrightsville Avenue to Mallard Drive/Rose Ave intersection

Project Status and Next Steps:
• Complete final design package and submit to NCDOT for review – Summer 2020
• Update/renew permits – Summer 2020
• NCDOT final design approval – Summer 2020
• Right of way acquisition complete – Fall 2020
• Begin Construction – Spring 2021
• Complete Construction – Spring 2022

U-5534H –CITY OF WILMINGTON- HINTON AVE MULTI-USE PATH
Project Descriptions/Scope: This project consists of the construction of a 10’ wide multi-use path along Hinton Avenue from Park Avenue to Greenville Avenue.

Project Status and Next Steps:
• Complete final design package and submit to NCDOT for review – Summer 2020
• Update/renew permits – Summer 2020
• NCDOT final design approval – Summer 2020
• Right of way acquisition complete – Fall 2020
• Begin Construction – Spring 2021
• Complete Construction – Spring 2022

U-5534I –TOWN OF LELAND- VILLAGE ROAD MULTI-USE PATH EXTENSION
Project Descriptions/Scope: The construction of a 8 foot wide concrete path from the connection at the Brunswick Center in Leland across the front of the library property, down Village Road, ending on the western edge of the First Baptist Church property before the Sturgeon Creek Bridge.

Project Status and Next Steps:
• Construction authorization issued on or about 5/15/2020
• Town agreed to defer reimbursement
• Bid Date – July 9, 2020
• Engineer to review combination I,J,K bids

U-5534J – TOWN OF LELAND- OLD FAYETTEVILLE LOOP ROAD PEDESTRIAN LOOP
Project Descriptions/Scope: The construction of sidewalks in three locations: 1) The construction of an 8 foot concrete sidewalk along Village Road from Town Hall Drive to the apartment complex and widening the existing 5 foot sidewalk in front of the apartment complex to 8 feet. 2) The construction of a 6 foot sidewalk along Town Hall Drive from Village Road NE to the sidewalk that exists by the new Town Hall. 3) The construction of a 5 foot sidewalk along Old Fayetteville Road
from the existing sidewalk in front of the apartment complex to Village Road NE.

Project Status and Next Steps:
• Construction authorization issued on or about 5/15/2020
• Town agreed to defer reimbursement
• Bid Date – July 9, 2020
• Engineer to review combination I,J,K bids

U-5534K – TOWN OF LELAND- LELAND MIDDLE SCHOOL SIDEWALK
Project Description/Scope: The construction of 5 foot wide concrete sidewalk adjacent to Old Fayetteville Road from Ricefield Branch Road to the US Hwy 74/76 overpass after Glendale Drive with connections to Leland Middle School and the surrounding neighborhoods.

Project Status and Next Steps:
• Construction authorization issued on or about 5/15/2020
• Town agreed to defer reimbursement
• Bid Date – July 9, 2020
• Engineer to review combination I,J,K bids

U-5534Q –CITY OF WILMINGTON- S. COLLEGE/HOLLY TREE CROSSWALKS
Project Description/Scope: The project will install sidewalk, ADA ramps, curb and gutter, markings and traffic signal revisions required to install actuated pedestrian crossings of S. College Road and crossings on Holly Tree Road.

Project Status and Next Steps:
• The project has been put on hold until NCDOT’s College Road resurfacing project occurs. NCDOT has reduced the scope of the milling and resurfacing, this puts the shallow drainage back on this project.
• If an alternative design is agreed upon that does not significantly affect the original scope of the project, the design process will be restarted. City staff needs to evaluate the drainage features in front of the Krispy Kreme to determine if alternative drainage that allows the removal of the pipe that is shallow)
• The City needs to have a discussion from the 4SW200 committee/MPO about additional funding to include drainage revision in the project.
• Additional resources will be required, both in design and redefinition of scope.

U-5534S (FORMERLY U-5534M)- TOWN OF WRIGHTSVILLE BEACH- CORAL DRIVE SIDEWALKS
Project Descriptions/Scope: The construction of sidewalks along Coral Drive will install approximately 954 linear feet of 5 foot wide sidewalk on Coral Drive adjacent to Wrightsville Beach Elementary. The Town hired SEPI to complete the design.

Project Status and Next Steps:
• Project is ready for bidding and construction. Plans and PCE have been approved. The contract documents have been approved.
• Additional funding was approved by the MPO Board in May 2020
• Anticipated bidding and construction to follow by late summer.

U-5534T –CITY OF WILMINGTON- TRAFFIC SIGNAL PREEMPTION
Project Description/Scope: This project will install traffic pre-emption equipment at 27
locations throughout the City of Wilmington and GPS devices on fire apparatus.

**Project Status and Next Steps:**
- Construction is complete
- Administrative and financial closeout in progress

**U-5534U – TOWN OF NAVASSA- NAVASSA PARK MULTI-USE PATH**

**Project Description/Scope:** This project will construct bike lanes on both sides of Brooklyn Street, a multi-use path connecting Brooklyn Street to the Navassa Park, and a multi-use path through the Navassa Park forming a loop within the park.

**Project Status and Next Steps:**
- 30% Plans comments received from NCDOT on January 31, 2020; 65% plans provided to Town and are under review for submittal to NCDOT.
- Project design and construction documents are moving forward; however, right-of-Way funding request is on hold due to NCDOT budget shortfall.
- Construction Funding is anticipated in FY2021

**EB-6025- TOWN OF BELVILLE- RICE HOPE MULTI-USE PATH**

**Project Description:** The project consists of the construction of a multi-use path of eight feet (8’) wide located at the western side of NC 133 between Morecamble Blvd and Rice Hope Run.

**Project Status and Next Steps:**
- The agreements have been executed
- The Town has selected Withers & Ravenel as the engineer
- An Addendum has been issued for a 6-month extension on the let date.
- Project design is on hold due to NCDOT budget shortfall.

**U-6234 MULTI-MODAL PHASE 1 B**

**Project Description/Scope:** Rehabilitation of the historic structure located at 525 N 4th Street for a transportation purpose

**Project Status and Next Steps:**
- Negotiating scope and fee with the selected firm
- NCDOT has approved the consultant’s fee
- City Council will consider agreement with HDR in July

**U-6235 – City of Wilmington/New Hanover County – Signal Pre-emption Phase 2**

**Project Description/Scope:** The project will install traffic pre-emption equipment at 50 locations throughout the City of Wilmington and New Hanover County and GPS equipment on emergency response vehicles.

**Project Status and Next Steps:**
- U-6235 agreement between NCDOT and City of Wilmington executed March 2020.
- Cost sharing agreements with New Hanover County started June 2019 and completed March 2020.
- NCDOT Authorization for Preliminary Engineering received March 2020.
- Project goals reviewed with NCDOT Division 3.
- Design Proposal received May 2020.
U-6039 – CAROLINA BEACH – ST. JOSEPH BIKE LANES

Project Description/Scope: Construct Bike Lanes along St. Joseph Avenue and Lewis Drive from Lake Park Boulevard to Access Drive in Carolina Beach

Project Status and Next Steps:
- TIP number has been entered. Town to upload information in EBS to request agreement.

TASA-DA

U-5527B CITY OF WILMINGTON – 5th AVE INTERSECTION UPGRADES

Project Description/Scope: This project is for the construction of high visibility crosswalks, curb ramps, and pedestrian activated signals on 5th Ave at the Dawson Street and Wooster Street intersections.

Project Status and Next Steps:
- 5th Dawson/Wooster project has been constructed as of June 26, 2020.
- Project punch-list walk through will be on July 7th, 2020 with contractor, NCDOT representative and City staff.
- Next step after the walk through, will be the M&T audit for compliance of the federal guidelines of the NCDOT construction manual.

U-5527C NEW HANOVER COUNTY – MIDDLE SOUND GREENWAY – EXTENSION TO MIDDLE SOUND VILLAGE

Project Description/Scope: This project is for the construction of a multi-use path along Middle Sound Loop Road from Oyster Lane to the Middle Sound Village property line.

Project Status and Next Steps:
- Bids opened May 16, 2020; low bid info sent to DOT
- Awaiting approval to proceed with project as bid-project on hold
- Project Completion is 90 days after NTP

EB-6026- TOWN OF BELVILLE- BELVILLE ELEMENTARY- MULTI-USE PATH

Project Description: The project consists of the construction of a multi-use path of eight feet (8’) wide located along NC 133 connecting north and south entrances of Hawks Water Development to Belville Elementary School.

Project Status and Next Steps:
- The agreements have been executed
- The Town has selected Withers & Ravenel as the engineer
- An Addendum has been issued for a 6-month extension on the let date.
- Project design is on hold due to NCDOT budget shortfall.

EB-6027 – NEW HANOVER COUNTY -MIDDLE SOUND GREENWAY

Project Description: Design only of the Middle Sound Greenway connection to Ogden Park

Project Status and Next Steps:
- Survey complete
- Received email from Ron VanCleef on 5/13/20 stating that there were no comments concerning the 25% plans.
• MPO Board approved a reduction in the scope of the project at their May meeting, staff is working on a negative supplement for approval
• Hydraulic Unit began storm drainage design on 6/15/20
• Preliminary alignment established and cross sections being developed
• 75% plans should be ready for EB 6027 by the end of July.

EB-6028 — CITY OF WILMINGTON- 21ST STREET/MARKET HAWK SIGNAL
Project Description: Design and construction of a HAWK signal at the pedestrian crossing at Market Street and 21st Street

Project Status and Next Steps:
• Pre-Design scoping meeting with Davenport Engineering and NCDOT Division Personnel occurred on 2/20.
• Scope of design defined, but this scope was much larger than initially anticipated. Adjustment to PE Authorization will be needed.
• NCDOT Manday estimate for issuance of task order approved on 6/24/2020
• The project will be placed on indefinite hold until such time as NCDOT addresses the Cash Balance issue. All projects have been asked to get to a stopping place due to NCDOT’s inability to pay for work.
• Survey and Design for NCDOT review.

EB-6029 – TOWN OF CAROLINA BEACH – CLARENDON AVENUE MULTI-USE PATH
Project Description: Construction of the Clarendon Avenue multi-use path from 4th Street to Dow Road

Project Status and Next Steps:
• The Town is evaluating the scope for the project.

TRANSPORTATION DEMAND MANAGEMENT PROGRAM
Project Description/Scope: UNCW is taking the role as lead employer for the Cape Fear region. The WMPO will coordinate with UNCW to work with other major employers in the region to identify opportunities for public outreach, marketing, carpooling, vanpooling, alternative/compressed work schedules, Emergency Guaranteed Ride Home, park and ride lots, etc. The MPO adopted “Work Cape Fear: Expanding Commuter Options in the Cape Fear Region” TDM Short Range Plan on January 28, 2015 and also authorized staff to apply for a TDM grant through NCDOT that funded a full-time TDM Coordinator position. The Agreement with NCDOT for the full-time TDM Coordinator position was approved on November 4, 2015. The TDM program works to increase active transportation initiatives and increase community knowledge of commuter options. The MPO finalized the Strategic Marketing Plan for the “Go Coast” program. In addition, the WMPO has been working with the City of Wilmington to implement a bike share program. The TDM program has continued to grow and progress and below are project status and next steps.

Project Status and Next Steps: Initiatives
1. Bike Share
   a. Developing analysis for bike share programs in the region. Specifically how other municipalities fund bike share programs.
2. Social Media
   a. Posting at least twice per week on WMPO Facebook, Twitter, and Instagram and Go Coast Instagram
3. Watch For Me NC
a. Wilmington will partner with NCDOT for 2020 Watch For Me NC bicycle and pedestrian safety program. Watch for Me NC task force comprised of WPD, WFD, Go Coast, Wilmington Engineering, and NHRMC are convening monthly

4. Wilmington was designated a Bronze Level Bicycle Friendly Community by the League of American Bicyclists in April 2020
a. LAB to provide feedback about how to become more bicycle friendly. Feedback to be received TBD

5. Short Range TDM Plan
a. Plan currently being reviewed by the Go Coast Committee. TCC and Board to receive draft in Fall of 2020

7. Applying for CASSI Autonomic Vehicle three month grant for Carolina Beach and Downtown Wilmington. Application deadline has been extended to July 31, 2020.
REGIONAL AUTHORITY PROJECTS

1. **Bus Fleet Replacement** - (no change) additional funding for four replacement buses has been requested from the VW mitigation settlement phase one. An RFP for funding was issued by NC DAQ on June 17, 2019. The application for funding was released on July 01, 2019. An application for four (4) CNG buses was submitted in response to the RFP. Phase one of the VW settlement project awards are expected to be announced in 2020.

2. **Long Term Funding** - on January 21, 2020 the City of Wilmington and New Hanover County each adopted a Concurrent Resolution of the Wilmington City Council and the Board of Commissioners of New Hanover County for Enhanced Public Transportation Operations and Efficiency. The resolution included a restructuring of the Wave Transit board. Transpro has been retained by New Hanover County to serve as consultant to the board during the evaluation process. Draft recommendations have been presented to the Wave Transit board for consideration and a final report is underway.

3. **Route 204 Brunswick Connector** - due to a lack of local funding Route 204, Wave Transit has begun the public comment process to discontinue the route. The ninety day process will include two public hearings scheduled for Wednesday, July 22, 2020 at 6:15 pm and Thursday, July 23, 2020 at 12:30 pm. Both hearings will take place at the Wave Transit Maintenance and Operations Center located at 1480 Castle Hayne Rd., 28401. A resolution formally eliminating service to Brunswick County is expected to be presented to the Authority Board for consideration on August 27, 2020. The route is tentatively scheduled to end service in early September 2020.

JULY TPD UPDATES WILMINGTON MPO

JULY 2020

**Brunswick County Model:** The Brunswick County Model was completed in February of this year.

**Wilmington Model:** The 2045 model is ready for MTP testing. The 2045 model will be considered the official Wilmington MPO Model when the MTP is adopted.

**Brunswick County CTP:** The project team has completed the Brunswick County Model and has been developing pre-CTP work products in anticipation of starting the CTP.

**COVID-19 Updates:** To get the most recent updates on NCDOT’s response to COVID-19 please refer to the following webpage:

**NCDOT Suspends Most Lane Closures for July Fourth:** The state will temporarily suspend most highway construction projects that cause lane closures to help reduce the anticipated influx of traffic over the July Fourth holiday weekend. The N.C. Department of Transportation will reopen closed lanes where possible on major routes from Thursday evening, July 2, until the morning of July 7.
NCSTC: Surveys for US 321 and US 74 have been collected. Resolutions have been created by selected MPOs and RPOs as well as a vision statement document template. The mobility analysis report and performance measures report is on the website. They received 638 surveys and 155 comments for US 74. We received 253 surveys and 44 comments for US 321.

**New Hanover County Bridges Complete, Highway Fully Reopens:** The N.C. Department of Transportation has completed construction on two bridges at the New Hanover-Pender county line, which was the state’s most damaged area during Hurricane Florence. Crews built a temporary bridge after the storm and in February 2019 NCDOT started on the construction of two two-lane bridges on U.S. 421 over Fishing Creek.

**Census 2020:** The 2020 Census is currently ongoing throughout the country. Completing your Census questionnaire ensures your area will receive fair representation in Congress and provides importation information used when financial resources are committed for health, schools, transportation and more. The Census questionnaire can be completed online, by phone, or on paper and must be completed by August 14th. Please see the following information to complete the questionnaire:  
https://my2020census.gov/ / 1-800-923-8282
