

## Coastal 17 Pender Hampstead Middle

#### **LEGEND**

Over 360 roadway segments have been scored for "bicycle friendliness". These scores and rankings of the roadways apply to cyclists experienced in operating on the roadway network with motorized vehicles. Inexperienced cyclists looking for facilities free of motorized vehicles should refer to the multiuse path facilities. Every bicyclist will not agree with all of the scores within this map. All bicyclists must use good judgement regarding their skill level to determine the routes most appropriate for them.

### About the WMPO

The Wilmington Urban Area Metropolitan Planning Organization (WMPO) is the regional transportation planning agency for the lower Cape Fear region of southeastern North Carolina. The WMPO facilitates a cooperative, comprehensive, and continuing transportation planning process that serves as the basis for the expenditure of all federal transportation funds in the area for streets, highways, bridges, public transit, and bicycle and pedestrian facilities.

#### **About Go Coast**

We can't always build our way out of congestion. Go Coast provides alternative and sustainable transportation options to those who live, work, and play in the Cape Fear Region. Go Coast emphasizes the movement of people rather than motor vehicles by encouraging the use of alternative transportation such as bicycling, walking, carpooling, and transit; so that while the population grows, your commute time stays the same. Go Coast organizes annual bicycle events like the River to Sea Bike Ride, Bike Month, the Go Coast Commuter Challenge, and the Brunswick Heritage Riverside Ride.

# FOR ME - NC (TO

We all share the responsibility to make sure North Carolina roads are safe for everyone, including pedestrians and bicyclists. Safe places to walk and bike are important for supporting active, vibrant communities. The "Watch for Me NC" program aims to reduce pedestrian and bicycle injuries and deaths through a comprehensive, targeted approach of public education, community engagement, and high visibility law enforcement. Through this program, you can learn more about how to be a safer driver, bicyclist, and pedestrian, and ultimately, reduce the number of people hit or killed by vehicles on North Carolina streets.
